Maternal Newborn Nursing Care Plans, Third Edition teaches students and practicing nurses how to assess, plan, provide, and evaluate care for pregnancy, delivery, recovery, abnormal conditions, and newborn care. Featuring more than 65 of the most common and high-risk care plans for nursing care using the nursing process approach, it includes NIC interventions, discussions on collaborative problems, key nursing activities, signs and symptoms, and diagnostic studies. Using a progressive approach, the text begins with generic care plans that address all patient situations regardless of the patient diagnosis or condition before moving on to more complicated and specific care plans. This is a Pageburst digital textbook; Engaging and easy to read, this concise textbook offers just the right level of maternity and pediatric nursing coverage. It provides a solid foundation in normal body function, then builds on that knowledge to help you understand how to modify nursing care when the unexpected arises. Clear writing and interactive learning tools (including video and animation) reinforce key concepts and encourage you to think critically and apply what you've learned. Critical to Remember boxes highlight "need to know" information for quick and easy access. Critical Thinking Exercises challenge you to apply critical thinking and problem-solving skills to realistic clinical scenarios. Illustrated Procedure boxes provide clear, step-by-step instructions for performing key clinical nursing tasks. Nursing Care Plans in every clinical chapter help you learn to use the nursing process to develop individualized care for maternity and pediatric patients. Communications Cues provide practical verbal and nonverbal tips for communicating effectively with patients and families. Want to Know boxes offer helpful patient teaching guidelines. Photo Stories use engaging pictures to demonstrate the types of care nurses provide in a variety of clinical settings. Pathophysiology boxes in pediatric chapters provide illustrated overviews of common disorders. Companion CD-ROM contains video clips, 3-D animations, illustrated skills, case studies with critical thinking questions, NCLEX® examination-style review questions, and an audio glossary complete with Spanish pronunciations. Evolve Student Resources Website offers up-to-date web links, video clips, resources for health care providers, review questions, and a variety of interactive exercises. Integrated electronic features match icons in the text, so you can use print and electronic resources more effectively together. Using Research to Improve Practice boxes help you determine proper care to reinforce best practice. Spanish translations are included for phrases commonly encountered with maternity and pediatric patients. Improved design makes the text easier to read, and up-to-date photos ensure accuracy. From pre- to post-birth, here's everything you need to know about the nursing care of mother, child, and family Maternity Nursing Demystified delivers a detailed, easy-to-follow overview of the essential concepts involved in providing nursing care to the mother and child before, during, and after pregnancy. The book emphasizes the underlying factors involved in maintaining or restoring the health of mother and new born and discusses the various factors that may threaten their wellbeing. You'll also learn how to apply these concepts to real-life situations. In order to make the learning process as fast and painless as possible, Maternity Nursing Demystified is filled with valuable learning aids such as illustrations, chapter objectives, key terms, topic overviews, diagrams and tables, summaries, NCLEX style questions, and even a comprehensive final exam. Maternity Nursing Demystified will also help you excel on course exams and the NCLEX Everything you need to understand: Roles and relationships, Families and communities, Assessment concepts, Reproductive health issues, Conception through trimester, Physiologic changes of pregnancy, Fetal development, Childbirth preparation, Labor and delivery, Complications of Pregnancy, Post partum care, Newborn care Here's the clinical information you need at your fingertips to provide safe, effective, and compassionate care in maternity and pediatric clinical settings. Full-color images of nursing skills and procedures as well as tools and charts make bedside reference easy. This volume seeks to answer the needs of instructors and students in the shorter paediatric and maternity nursing courses. It should provide students with the right amount of accurate and up-to-date content in an easy-to-understand style. The first part of the book includes content on maternal health nursing, including the newborn, and the second part of the book covers content related to paediatric nursing. Drawings, photographs, and tables help clarify the narrative. Build your skills in the science and art of maternity and pediatric nursing! Maternal-Child Nursing, 6th Edition makes it easy to understand the essentials of women's health, maternity, and children's nursing care. It simplifies the steps of the nursing process and relates them to care, helping you develop clinical judgment skills and provide safe, effective care in evidence-based practice. This edition adds case studies preparing you for the new Next Generation NCLEX® examination. Best of all, active learning tools and features make it fun to master nursing concepts, offering plenty of opportunities to apply your knowledge to the practice setting. Nursing Care Plans help students apply the nursing process to plan individualized care in the most common maternity and pediatric situations. Clinical Reference sections in pediatric chapters provide basic information on disorders and their related anatomy and physiology, differences in body systems between children and adults, commonly used drugs, lab values, diagnostic tests, and procedures. Clinical Judgment boxes highlight situations designed to test clinical judgment skills. Health Promotion boxes highlight information needed to perform a comprehensive assessment of well infants and children at various ages. Safety Alerts emphasize what is important to remember when providing safe and optimal quality care. Pathophysiology boxes present an illustrated overview of illnesses and how to manage them. Want to Know boxes provide teaching guidelines, including sample answers for questions that are likely to be asked or topics that need to be taught. Communication Cues offer practical tips for verbal and nonverbal communication with patients and families. Glossary at the end of the book gives students quick access to all key terms and definitions. NEW! Next Generation NCLEX® (NGN) examination-style case studies expose students to how content will be tested in the exam; case studies are either single-situation or unfolding studies. NEW! Updated Drug Guides summarize the latest information on medications. Master the essentials of maternity and pediatric nursing with this comprehensive, all-in-one text! Maternal Child Nursing Care, 7th Edition covers the issues and concerns of women during their childbearing years and children during their developing years. It uses a family-centered, problem-solving approach to patient care, with guidelines supported by evidence-based practice. New to this edition is an emphasis on clinical judgment skills and a new chapter on children with integumentary dysfunction. Written by a team of experts led by Shannon E. Perry and Marilyn J. Hockenberry, this book provides the accurate information you need to succeed in the classroom, the clinical setting, and on the Next Generation NCLEX-RN® examination. Focus on the family throughout the text emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Information on victims of sexual abuse as parents and human trafficking helps prepare students to handle these delicate issues. Nursing Alerts highlight critical information that could lead to deteriorating or emergency situations. Guidelines boxes outline nursing procedures in an easy-to-follow format. Evidence-Based Practice boxes include findings from recent clinical studies. Emergency Treatment boxes describe the signs and symptoms of emergency situations and provide step-by-step interventions. Atraumatic Care boxes teach students how to manage pain and provide competent care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes highlight important information nurses need to communicate to patients and families. Cultural Considerations boxes describe beliefs and practices relating to pregnancy, labor and birth, parenting, and women's health. Family-Centered Care boxes draw attention to the needs or concerns of families that students should consider to provide family-centered care. Ideal for accelerated maternity and pediatrics courses, Maternal-Child Nursing, 4th Edition is filled with user-friendly features to help you quickly master essential concepts and skills. It offers completely updated content that's easy to read and understand. Plus, active learning tools give you the chance to practice applying your knowledge and make learning fun! Critical Thinking Exercises allow you to apply your knowledge to realistic clinical situations. Nursing care plans assist you with applying the nursing process to plan individualized care for the most common maternity and pediatric conditions. Critical to Remember boxes summarize and highlight essential, need-to-know information. Communication Cues provide practical tips for effective verbal and nonverbal communication with patients and families. Clinical Reference sections in pediatric chapters present information relevant to each body system, including anatomy and physiology, differences in the pediatric patient, and related laboratory and diagnostic tests. Integrated electronic features match icons in the text, so you can use print and electronic resources more effectively together. Using Research to Improve Practice boxes help you determine proper care to reinforce best practice. Spanish translations are included for phrases commonly encountered with maternity and pediatric patients. Improved design makes the text easier to read, and up-to-date photos ensure accuracy. Binder-Ready Edition: This loose-leaf copy of the full text is a convenient, accessible, and customizable alternative to the bound book. With this binder-ready edition, students can personalize the text to match their unique needs! Easily master maternity and pediatric nursing care with Maternal-Child Nursing, 5th Edition. This easy-to-read text is filled with a wealth of user-friendly features to help you quickly master essential concepts and skills. It offers completely updated content - including expanded information on the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman and children, and enhanced coverage of the QSEN initiative. AJN Book of the Year 2009 The ENHANCED, REVISED, REPRINT of Maternal-Child Care Nursing is the same great book that won an AJN Book-of-the-Year Award... made even better with the feedback we received from instructors across the country and Canada. BONUS! The Women's Health Companion, packaged with every copy of the book, is a \$29.00 value that's absolutely FREE when you purchase the ENHANCED, REVISED, REPRINT. It's a complete guide to the role of the nurse in promoting women's health. From class to clinical through NCLEX to practice, it presents all of the information nursing students need to know and shows them how to apply it in both traditional and community settings. There are even teaching and learning resources for this content online at DavisPlus. The perfect balance of maternal and child nursing care in a new textbook conceived and written to be a combination textbook! An extensive review by nursing educators ensures that it offers just the right depth and breadth of coverage for students in today's maternity/pediatric courses. Its unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring for women, families and children not only in traditional hospital settings, but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material. LEARN-APPLY-ASSESS Davis Advantage for Maternal-Child Nursing Care combines an innovative text with an immersive online program that make this challenging but must-know content easier to master by making learning personal. Together, they create a seamless experience that tracks each student's progress and assesses their knowledge until they have mastered the concepts and are ready to apply them in class, clinical, and practice. An access code inside new, printed textbooks unlocks an ebook, as well as access to Davis Advantage. Or choose the all-digital Instant Access option, which includes the ebook and immediate access to Davis Advantage. Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence. Reinforce your understanding of maternity and pediatric nursing with practical exercises! Corresponding to the chapters in McKinney's Maternal-Child Nursing, 6th Edition, this study guide provides engaging activities and review questions to help you master nursing concepts and practice essential skills. Case studies help you learn to think critically, and clinical judgment exercises help you apply your knowledge to real-life situations. Not only will you get more out of the textbook, but you will also prepare more effectively for the NCLEX(R) exam! Learning exercises include multiple-choice, matching, true/false, short answer, and fill-in-the-blank questions, plus case studies and learning applications, helping students apply knowledge to solve problems, make decisions about care management, and provide responses to a patient's questions and concerns. Clinical Judgment exercises help students apply nursing theory to real-life situations, further testing critical thinking and decision-making skills. Suggested learning activities for community and clinical settings enhance understanding of the content. Answers to all activities are provided at the back of the study guide. NEW! Next Generation NCLEX(R) (NGN) examination-style case studies familiarize students to the way that content will be tested in the new NGN exam. NEW! Revised review questions reflect the updated content in Maternal-Child Nursing, 6th Edition and allow students to quickly check their knowledge and understanding of the material in each chapter of the text. Print+CourseSmart Thinking Critically case-based activities require students to apply the concepts found in the chapters to solve problems, make clinical judgement decisions concerning care management, and provide responses to patient questions and concerns. Reviewing Key Concepts questions in various formats give students ample opportunities to assess their knowledge and comprehension of information covered in the text. Matching, fill-in-the-blank, true/false, short-answer, and multiple-choice activities help students identify the core content of each chapter and test their understanding. Learning Key Terms matching and fill-in-the-blank questions let students test their ability to define all key terms highlighted in the corresponding textbook chapter. Perforated pages allow you to use activities for graded assignments. Answer key at the end of the book includes answers to all questions. Reinforce your understanding of maternity and pediatric nursing with this practical study guide! With chapters corresponding to the chapters in Maternal Child Nursing Care, 7th Edition, this workbook provides a variety of exercises and activities to help you review essential concepts, apply your knowledge, and learn to think critically. New to this edition are clinical judgment and Next Generation NCLEX-RN® (NGN) examination-style questions to help you prepare for success on the NGN and in nursing practice. Clinical Judgment and Next Generation NCLEX® examination-style questions help students to apply concepts in solving problems, make decisions concerning care management, answer patients' questions, and prepare for the NCLEX-RN exam. Review questions help students test their level of knowledge and understanding of key concepts with matching, fill-in-the-blank, true/false, short answer, and multiple-choice questions. Learning Key Terms sections include matching and fill-in-the-blank questions, reinforcing students' ability to understand and remember important terminology. Perforated pages make it easy for students to turn in Study Guide activities as graded assignments. Answer key at the end of the book includes answers to all questions. NEW! Updated content throughout corresponds to the new features and chapters in the Maternal Child Nursing Care, 7th Edition text. A better way to learn maternal and newborn nursing! This unique presentation provides tightly focused maternal-newborn coverage in a highly structured text. It offers the perfect balance of maternal and child nursing care with the right depth and breadth of coverage for students in today's maternity/pediatric courses. A unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring for women, families and children, not only in traditional hospital settings, but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material. Featuring the most accurate, current, and clinically relevant information available, Maternal Child Nursing Care in Canada, 2nd Edition, combines essential maternity and pediatric nursing information in one text. The promotion of wellness and the care for women experiencing common health concerns throughout the lifespan, care in childbearing, as well as the health care of children and child development in the context of the family. Health problems including physiological dysfunctions and children with special needs and illnesses are also featured. This text provides a family-centred care approach that recognizes the importance of collaboration with families when providing care. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Nursing Alerts point students to critical information that must be considered in providing care. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Critical thinking case studies offer opportunities to test and develop analytical skills and apply knowledge in various settings. Emergency boxes guide you through step-by-step emergency procedures. Family-Centred Teaching boxes highlight the needs or concerns of families that you should consider to provide family-centred care. NEW! Content updates throughout the text give you the latest information on topics such as perinatal standards, mental health issues during pregnancy, developmental and neurological issues in pediatrics, new guidelines including SOGC, and CAPWHN, NEW! Increased coverage on health care in the LGBTQ community and First Nations, Metis, and Inuit population NEW! Medication Alerts stress medication safety concerns for better therapeutic management. NEW! Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice. Growing research shows that many children from immigrant and refugee families are not doing well in school, due in part to linguistic and cultural disadvantages. Teaching dual-language learners requires cultural sensitivity, an understanding of language acquisition, and intentional teaching strategies. Combining research and techniques, this resource helps early childhood educators support dual-language learners as they develop the skills necessary for school readiness and success. This market-leading textbook provides just the "right amount" of maternity and pediatric content in an easy-to-understand manner. Divided into two sections, the first part of the book includes 28 chapters on maternity nursing and the second part contains 27 chapters covering pediatric nursing. Numerous illustrations, photos, boxes, and tables clarify key content and help you quickly find essential information. And because it's written by market-leading experts in maternity and pediatric nursing, you can be sure you're getting the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX(R) examination. New content about LGBTQ+ included in the Transition to Parenthood chapter. NEW! Information on victims of sexual abuse as parents and human trafficking helps prepare you to handle these delicate issues. NEW and UPDATED! Case studies emphasize interprofessional care, demonstrating how nursing must collaborate with other health care disciplines to provide the most comprehensive care possible to women and children. UPDATED! Nursing Care Plans now incorporate case studies to personalize interventions and promote critical thinking. Learn to apply the knowledge you gain from Maternal-Child Nursing, 5th Edition to real-world scenarios with this user-friendly study guide. Specifically designed to parallel the material in the McKinney text, it's full of hands-on learning exercises, practical activities, and valuable review of essential concepts and skills to help cement your understanding of maternity and pediatric nursing care and apply that knowledge to the clinical world. Revised review questions reflect the study guide's updated content and allow you to quickly check your understanding of text material. Learning exercises include matching, short answer, fill-in-the-blank, and true/false questions to test your knowledge of the important material from each chapter. Expanded critical thinking exercises further test your critical thinking and decision making skills. Case studies and critical thinking exercises help you apply theoretical knowledge to real-life situations. Suggested learning activities for community and clinical settings enhance your understanding of the content. NEW! Completely updated content matches the textbook and provides a comprehensive review of essential maternal-child concepts and skills.
