**The Search for an Alternative** Mar 04 2021 This is the final work of one of the most influential American philosophers of the twentieth century. After many years of investigation throughout a long and distinguished career, this book represents Marvin Farber's definitive answer to the question of the nature and function of philosophy. Originally a follower of Husserl, Farber can be credited with bringing phenomenology to the attention of American philosophy. In his later years, he abandoned phenomenology for a kind of naturalism and subsequently called himself a Marxist. This volume, which he had been working on since his retirement from active teaching, is the culmination of Farber's analytical abilities. His earlier career was highlighted with many milestones as well. Along with publishing Phenomenology as a Method and as a Philosophical Discipline in 1928 (his first book which served to introduce phenomenology to the United States), Farber organized the International Phenomenological Society. He became its first president in 1931 and began publishing the journal Philosophy and Phenomenological Research the next year. In 1940 he published Philosophical Essays in Memory of Edmund Husserl, a collection of essays by a number of Husserl's more distinguished followers, many of whom had emigrated to the United States. Farber's other books include: Foundation of Phenomenology; Naturalism and Subjectivism; he coauthored Philosophy for the Future: The Quest of Modern Materialism. The Search for an Alternative considers the nature of philosophy, discussing Husserl, Marx, Lenin, and Farber's own ideas on phenomenology. Primarily concerned with the philosophy of philosophy, and the analysis of contemporary versions of phenomenology and Marxism, the author contributes penetrating and profound insights on other fundamental philosophical topics such as the nature of value, of essences, of structure, and of possibility and potentiality.

[The Search for Good Wine](#) Jan 02 2021 The Search for Good Wine is a highly entertaining and informative book on all aspects of wine and its consumption by nationally-syndicated wine columnist John Hailman, author of the critically-acclaimed Thomas Jefferson on Wine (2006). Hailman explores the wine-drinking experiences and tastes of famous wine-lovers from jolly Ben Franklin and the surprisingly enthusiastic George Washington to Julius Caesar, Sherlock Holmes, and Ernest Hemingway among numerous other famous figures. Hailman also recounts in fascinating detail the exotic life of the founder of the California wine industry, Hungarian Agoston Haraszthy, who introduced Zinfandel to the U.S. Hailman gives calm and reliable guidance on how to deal with snobby wine waiters and how to choose the best wine books and travel guides. He simplifies the ABCs of wine-grape types from the delicate pinot noirs of Oregon to the robust malbecs of Argentina and from the vibrant new whites of Spain to the great reds (old and new) of Italy. The entire book is dedicated to finding values in wine. As Hailman says, "Everyone always wants to know one basic thing: How can you get the best possible wine for the lowest possible price?" His new book is highly practical and effective in answering that eternal question and many more about wine. A judge at the top international wine competitions for over thirty years, Hailman examines those experiences and the value of "blind" tastings. He gives insightful tips on how to select a good wine store, how to decipher wine labels and wine lists, and even how to extract unruly champagne corks without crippling yourself or others. Hailman simplifies wine jargon and effectively demystifies the culture of wine fascination, restoring the consumption of wine to the natural pleasure it really should be.

**The Search for Why** Feb 27 2023 EVER WONDERED WHY PEOPLE REALLY DO WHAT THEY DO? (AND WHAT WE COULD ACCOMPLISH IF WE ONLY KNEW?) We need a clear-eyed look at what's happening in society right now. Social systems are being undermined, or failing, before our eyes. The trust that we once had in organizations, corporations, journalism, education, science, medicine, government—and even one another—is compromised. People are feeling isolated and alone. How do we move forward as a society? How can we connect with and understand one another? How do we find productive ways to communicate, meeting those we are trying to reach where they are and speaking to what's important to them? And how do we have robust and productive dialogue that (re)builds meaningful, supportive, and resilient relationships and institutions? Bob Raleigh suggests that any approach must start by understanding the why. *The Search for Why* compellingly demonstrates that we need a better model and follows Raleigh on his career journey to find one. In this book, Raleigh draws on his decades of experience in market research and public-communication strategy, the possibilities of our contemporary era of big data, and groundbreaking research from psychology, cognitive and behavioral sciences, anthropology, sociology, and philosophy, all of which have informed the Model of Why approach that he proposes. For anyone looking to persuade people, heal divisions, or build better relationships, *The Search for Why* is a crucial step in the right direction.

Convinced he's still alive, Amina heads for enemy territory determined to rescue her brother, no matter the cost. Before leaving, Amina charges the Hebrew newcomer Salome with the daunting task of safely guiding the Notzrim people to her home in the mountains. Further complicating matters is that the Notzrim people are not welcome among the Hebrews, and Salome knows it. Now afflicted with an impossible internal conflict, will Salome follow through with her promise to Amina, or will the fear of banishment for disregarding her chief's orders prevent her from completing such a courageous task? Meanwhile Aiden, still alive but held captive in the luxurious capitol, is surprised to discover the identity of his captor and the extraordinary lengths they are willing to go to entice him to stay. The only question that remains is whether Aiden is willing to give up everything he believes in for this new and unexpected opportunity.

**The search for democratic renewal** Jun 07 2021 Why is the search for democratic renewal so elusive? This book examines both the political and policy implications of efforts by the centre-left to transform democracy. This is a story not only about democratic change, but also the identity crisis of centre-left political parties. The book offers a fresh critique of the Big Society agenda, and analyses why both left and right are searching for democratic renewal. Drawing on high-profile interviews and examining an in-depth series of comparative cases, the book argues that the centre-left's search for democratic renewal contains a range of policy and political aims, contradictions and tensions. It will be of interest to students, academics, researchers, interest groups and policy analysts interested in consultation, democratic renewal, labour politics, and Australian and British politics.

**Smart Women: The Search for America's Historic All - Women Study Clubs** Sep 29 2020 Hiding in plain sight throughout America are historic, highly private women's self-education groups. These clubs are fascinating survivors from an era following the Civil War when women couldn't apply to most colleges and were told they shouldn't leave the home. In their earliest days, the study groups also contributed to the welfare of their towns - often by helping to found their town's first library-and served to get women out of the house and into the world. Today's all-women study clubs have no civic component but still fashion their meetings as their founding great-grandmothers did, with members taking turns giving original papers. In *Smart Women*, author Ann Dodds Costello discusses her four-year quest to locate, often visit, and describe today's 100-year-old, all-women study clubs, all over America, even though they do not publicize and have no central organization or knowledge of each other. Included: an invaluable, first-ever directory of most of the book's ninety-plus clubs.

*The Book of Atlantis Black: The Search for a Sister Gone Missing* Oct 23 2022 *The Book of Atlantis Black: The Search for a Sister Gone Missing* will have you questioning facts, rooting for secrets, and asking what it means to know the truth. A young woman is found dead on the floor of a Tijuana hotel room. An ID in a nearby purse reads "Atlantis Black." The police report states that the body does not seem to match the identification, yet the body is quickly cremated and the case is considered closed. So begins Betsy Bonner's search for her sister, Atlantis, and the unraveling of the mysterious final months before Atlantis's

disappearance, alleged overdose, and death. With access to her sister's email and social media accounts, Bonner attempts to decipher and construct a narrative: frantic and unintelligible Facebook posts, alarming images of a woman with a handgun, Craigslist companionship ads, DEA agent testimony, video surveillance, police reports, and various phone calls and moments in the flesh conjured from memory. Through a history only she and Atlantis shared—a childhood fraught with abuse and mental illness, Atlantis's precocious yet short rise in the music world, and through it all an unshakable bond of sisterhood—Bonner finds questions that lead only to more questions and possible clues that seem to point in no particular direction. In this haunting memoir and piercing true crime account, Bonner must decide how far she will go to understand a sister who, like the mythical island she renamed herself for, might prove impossible to find.

The Search for Why Jan 26 2023 EVER WONDERED WHY PEOPLE REALLY DO WHAT THEY DO? (AND WHAT WE COULD ACCOMPLISH IF WE ONLY KNEW?) We need a clear-eyed look at what's happening in society right now. Misinformation, fake news, and politicization is affecting how we as a society come to grips with a global pandemic, economic inequality, and racial injustice. If we are to mend the divides between us and grapple with the challenges before us, we need, first, to understand the why. In *The Search for Why*, Bob Raleigh provides a new model for how to understand human behavior, the fundamentals of why we do what we do. He draws on his experience in market research and public communication strategy and combines that with research in the social sciences, like psychology, cognitive and behavioral sciences, and anthropology. *The Search for Why* covers topics like: -Why so frequently people seem to act against their own best interests, both in politics and their personal lives -How to better communicate with one another across political and cultural divides -How to craft persuasive messages that meet people where they are, and listen to what they are saying back -Ways you can apply this model to help build a better world, at a personal, social, and global level -What influences our decisions, even when we don't realize it For anyone looking to persuade people, heal divisions, or build better relationships, *The Search for Why* is a crucial step in the right direction.

While these may be sought in religious traditions, many also aspire to new secular certainties. In their various new forms and contexts the contemporary quests for meaning in turn transform the societies in which they occur. The rich comparative examples in *The Search for Fundamentals* are used to analyze the sources and consequences of several cultural movements. The book also offers theoretical reflections on the difficulties they experience and on the message they carry for students of modernity. Audience: A broad readership of scholars and advanced students in the social sciences and humanities.
