YouTube, the leading website in online video streaming and sharing, is one of the best avenues to promote something on the internet. Owned by Google, YouTube has become more of a social network than just a place where people visit to watch videos. People use YouTube to promote whatever they want - a new service or product, news through websites, video games, music, tutorials, and so on. The list is endless. While there are many ways to assess the success of a YouTube channel, the most common measurement is by its number of viewers and subscribers. What makes a video "viral," for example, is the number of times the video has been viewed or shared through various means. How popular a channel is can be gauged by the number of people who willingly subscribe to it for updates. Of course, there's more to it than just posting videos on YouTube, since we know that plenty of material doesn't go viral. Clearly, some videos have earned more success than others, while many more - a lot more - have simply come and gone. This easy-to-follow guide will help you learn how the YouTube community works, how to get more people to watch your videos, and how to get these viewers to subscribe to your channel through effective and legitimate means. Two top business professors offer up the only negotiation book you'll ever need Do you know what you want? How can you make sure you get it? Or rather, how can you convince others to give it to you? Almost every interaction involves negotiation, yet we often miss the cues that would allow us to make the most of these exchanges. In *Getting (More of) What You Want*, Margaret Neale and Thomas Lys draw on the latest advances in psychology and behavioral economics to provide new strategies for negotiation that take into account people's irrational biases as well as their rational behaviors. Whether you're shopping for a car, lobbying for a raise, or simply haggling over who takes out the trash, *Getting (More of) What You Want* shows how negotiations regularly leave significant value on the table-and how you can claim it. But you sure can nurture the well-hidden creativity that's already there--and here's how. If you've tried to train employees to be more creative, you probably know this already: Creativity may be a discipline, but it's not a teachable skill. It's a frame of mind that makes people more receptive to making fresh connections. You can't teach it, but you can nurture it by providing an environment that inspires and invigorates employees... Sit back and relax and learn about why overworking and under resting can be harmful to yourself and your career. "Rest is such a valuable book. If work is our national religion, Pang is the philosopher reintegrating our bifurcated selves."---Arianna Huffington, New York Times Book Review Overwork is the new normal. Rest is something to do when the important things are done-but they are never done. Looking at different forms of rest, from sleep to vacation, Silicon Valley futurist and business consultant Alex Soojung-Kim Pang dispels the myth that the harder we work the better the outcome. He combines rigorous scientific research with a rich array of examples of writers, painters, and thinkers---from Darwin to Stephen King---to challenge our tendency to see work and relaxation as antithetical. "Deliberate rest," as Pang calls it, is the true key to productivity, and will give us more energy, sharper ideas, and a better life. Rest offers a roadmap to rediscovering the importance of rest in our lives, and a convincing argument that we need to relax more if we actually want to get more done. EVERY DAY STARTS WITH A GOOD NIGHT'S SLEEP Did you just suppress a yawn? Are you one of the walking weary--the 100 million Americans who suffer from occasional or chronic sleep problems? If so, you know how serious the problem can be: troubled sleepers can lead troubled lives. On an average, we spend one third of our lives sleeping--and how we sleep can make the difference between feeling tired all of the time and facing each day with a fresh, energetic attitude. This practical guide to healthy sleep by sleep expert Dianne Hales can help you get the rest you need to get the most out of life. It covers the latest discoveries of "sleep scientists"--whose probing of the mysteries of sleep has led to breakthroughs in treating sleep problems--and includes: • 101 mental maneuvers for putting yourself to sleep • New treatments for age-old complaints like snoring and sleepwalking • Effective methods for overcoming sleep rhythm disorders caused by jet lag or shift changes • New insights into how dreams can help you solve daytime problems • Simple self-tests to determine if you need professional help--and where to turn if you do Your sleep problem is not insurmountable. You, too, can sleep like a baby and wake up ready for a healthy, active life. This book is about solving the 'getting customers' problem for you and helping you achieve that financial freedom - fast.
