**Harmonic Experience** Aug 05 2021 An exploration of musical harmony from its ancient fundamentals to its most complex modern progressions, addressing how

and why it resonates emotionally and spiritually in the individual. W. A. Mathieu, an accomplished author and recording artist, presents a way of learning music that reconnects modern-day musicians with the source from which music was originally generated. As the author states, "The rules of music--including counterpoint and harmony--were not formed in our brains but in the resonance chambers of our bodies." His theory of music reconciles the ancient harmonic system of just intonation with the modern system of twelve-tone temperament. Saying that the way we think music is far from the way we do music, Mathieu explains why certain combinations of sounds are experienced by the listener as harmonious. His prose often resembles the rhythms and cadences of music itself, and his many musical examples allow readers to discover their own musical responses.

**Listening for Lucca** Sep 18 2022 "I'm obsessed with abandoned things." Siena's obsession began a year and a half ago, around the time her two-year-old brother Lucca stopped talking. Now Mom and Dad are moving the family from Brooklyn to Maine hoping that it will mean a whole new start for Lucca and Siena. She soon realizes that their wonderful old house on the beach holds secrets. When Siena writes in her diary with an old pen she found in her closet, the pen writes its own story, of Sarah and Joshua, a brother and sister who lived in the same house during World War II. As the two stories unfold, amazing parallels begin to

appear, and Siena senses that Sarah and Joshua's story might contain the key to unlocking Lucca's voice.

**Jesus: Listening for His Voice** Jun 22 2020 Jesus spoke words of life and truth. How well are you listening? True listening isn't simply hearing the words of Jesus; it involves belief that results in active commitment. Throughout His earthly ministry, Jesus interacted with people from all walks of life. In every case, those individuals could choose to believe His words and reap the rewards of faith—or resist the truth and miss out on everything that truly matters. This same choice is yours today. In this second book in a three-part study of the gospel of Mark, you can read for yourself the words of Jesus in Mark 7–13. If you then align yourself with the One who is truth, you'll experience for yourself the freedom that comes from truly listening for and following the voice of the Savior.

**Listening for America: Inside the Great American Songbook from Gershwin to Sondheim** Dec 09 2021 “Not since the late Leonard Bernstein has classical music had a combination salesman-teacher as irresistible as Kapilow.” —Kansas City Star Few people in recent memory have dedicated themselves as devotedly to the story of twentieth-century American music as Rob Kapilow, the composer, conductor, and host of the hit NPR music radio program, *What Makes It Great?* Now, in *Listening for America*, he turns his keen ear to the Great American Songbook, bringing many of our favorite classics to life through the songs and stories of eight of the twentieth century's most

treasured American composers—Kern, Porter, Gershwin, Arlen, Berlin, Rodgers, Bernstein, and Sondheim. Hardly confining himself to celebrating what makes these catchy melodies so unforgettable, Kapilow delves deeply into how issues of race, immigration, sexuality, and appropriation intertwine in masterpieces like *Show Boat* and *West Side Story*. A book not just about musical theater but about America itself, *Listening for America* is equally for the devotee, the singer, the music student, or for anyone intrigued by how popular music has shaped the larger culture, and promises to be the ideal gift book for years to come.

*Listening for God* Mar 12 2022 We all long to know the will of God in our lives, to obtain answers to our prayers, and to receive tangible evidence of the personal care of our heavenly Father. We deeply desire to hear His voice. And here's the good news: God is not silent. He is constantly reaching out to each of us. Often His voice is quiet and can be heard only in prayer. He frequently breaks into our lives with timely remedies, miraculous encounters, and surprising circumstances that can be explained only by the reality of a loving and caring God. Popular Catholic author and radio host Teresa Tomeo has gathered an inspiring collection of such "Godcidences" from her life, as well as personal stories from a variety of Catholics—including broadcasters Joan Lewis, Al Kresta, Steve Ray, and authors Greg and Julie Alexander—of the unmistakable ways God has spoken to them. In

these pages, you'll read about ordinary and extraordinary "come-to-Jesus moments," such as: • The mysterious man who appeared to an anxious couple at a deserted train station in Italy to give them assistance ... and then just as quickly disappeared • How a six-word sentence from a husband to his embittered wife served to redirect their marriage from bitterness toward reconciliation and renewal • A business offer that arrived out of the blue, just as financial ruin threatened the future of a wife and husband recently jolted by an Alzheimer's diagnosis • The unexpected link between a young woman's moment of despair, as she curled up on the floor of her shower, and the day she kissed the ring of Pope St. John Paul II • How a car accident led to a life-saving ultrasound for an abortion-minded mother • What the Holy Spirit inspired a woman to say in a casual airplane conversation that transformed it into a never-to-be-forgotten encounter These and many more profound and intimate stories will deepen your faith as they remind you of the active presence of God in your life. Each comes with lessons for you to apply to your life and reflections to help you grow in your ability to hear and respond to the still, small, powerful voice of God.

**Listening for Well-being** Oct 19 2022 Arun's insights...provide a unique perspective on collaborative solutions to address humanity's greatest challenges. -Ratan Tata Walls have risen between nations and people of different faiths and cultures. There is increasing violence against people whom we do not approve-physical in the real world and verbal online. We are unwilling to give people the dignity that they deserve when they are different. We are losing our ability to listen to people who are not like us even within the boundaries of our nations. The idea of democracy is in peril. Meanwhile, global problems-climate change, depletion of shared resources, persistent poverty and increasing inequalities-cry out for more urgent solutions. Listening is a simple idea. Everyone-rich or poor, powerful or weak, educated or uneducated-can listen to each other. In *Listening for Well-Being*, Arun Maira shows us ways to use the power of listening. He analyses the causes for the decline in listening and proposes solutions to increase its depth in private and public discourse. Drawing from his extensive experience as a leading strategist, Maira emphasizes that by listening deeply, especially to people who are not like us, we can create a more inclusive, just, harmonious and sustainable world for

everyone.

**The Musical Life** Jul 04 2021 Everyone, according to W.A. Mathieu, is musical by nature—it goes right along with being human. And if you don't believe it, this book will convince you. In a series of interrelated short essays, Mathieu takes the reader on a journey through ordinary experiences to open our ears to the rich variety of music that surrounds us but that we are trained to ignore; such as the variety of pitches produced by different objects, like glassware, furniture, drums—anything you can tap; or sounds that hover on the border of music, like laughter, the clinking of glasses in a toast, or the unintentional falsetto produced by yawning. Along the way the author teaches aspects of music theory that nonmusicians might ordinarily shy away from. He reveals the way of

music to be a profoundly spiritual path—one that is everyone's birthright.

*Holy Listening with Breath, Body, and the Spirit* Apr 01 2021 Many of us long to hear God's voice, yet we often overlook the great wisdom God gave us in our bodies. There is a deep connection between our bodies and spirits. What might happen if we listened more deeply to the wisdom of our bodies? How might listening with our whole selves change the way we listen to God? A stroke at age 31 forced Whitney Simpson to slow down and listen more deeply to her body. In the process she discovered how to listen more deeply to God. During her journey of healing and wholeness, Whitney explored ancient practices that she found helpful in connecting her body and spirit, including: lectio divina (meditative reading of scripture) yoga breath prayer aromatherapy Listening to God with the entire body, not simply with our ears, may seem like a strange

concept. Yet God created the body and the breath as gifts for us to explore. Most important, we don't have to experience a crisis to learn to listen to God's activity in and around us. Each of us can slow down and listen for God just as we are—in breath, body, and spirit. This 40-day guide to holy listening offers daily meditations that can be completed in as little as 30 minutes. Each meditation includes scripture, yoga postures, a breath prayer, suggested essential oils, and reflection questions. The book provides descriptions and simple illustrations of yoga poses and suggests seated poses as modifications for all poses, making it accessible to both experienced yoga practitioners and those new to yoga. Allow this book to invite you on a journey of holy listening as you explore ancient tools and new ways of experiencing the presence of God.

[Listening for What Matters](#) Aug 17 2022 Effective health care requires physicians tailor care to patients' individual life contexts, including their financial situation, social support, competing responsibilities, and cognitive abilities. Physicians, however, are poorly prepared to consider patients' lives when planning their care. The result is measurably harmful to individuals and costly to society. *Listening for What Matters: Avoiding Contextual Errors in Health Care* covers ten years of empirical research based on hundreds of recorded doctor visits by patients and undercover actors alike, which revealed a widespread disregard of patients' individual circumstances and needs resulting in inappropriate care. These medical

errors have been largely undocumented and unaddressed by the American healthcare system. This book tells the stories of patients whose care was compromised by inattention to individual context, and introduces novel methods for assessing the magnitude of the problem. It describes how these errors, termed "contextual errors," can be minimized through changes in how doctors are trained, how medicine is practiced and quality measured, and in the ways patients assert their needs during visits. The aim of this book is to open a dialog between patients, physicians, policy makers, and medical educators, about a serious quality problem that has been overlooked and understudied.

*Listening for Africa* Jan 30 2021 In *Listening for Africa* David F. Garcia explores how a diverse group of musicians, dancers, academics, and activists engaged with the idea of black music and dance's African origins between the 1930s and 1950s. Garcia examines the work of figures ranging from Melville J. Herskovits, Katherine Dunham, and Asadata Dafora to Duke Ellington, Dámaso Pérez Prado, and others who believed that linking black music and dance with Africa and nature would help realize modernity's promises of freedom in the face of fascism and racism in Europe and the Americas, colonialism in Africa, and the nuclear threat at the start of the Cold War. In analyzing their work, Garcia traces how such attempts to link black music and dance to Africa unintentionally reinforced the binary relationships between the West and Africa, white and black, the modern and the

primitive, science and magic, and rural and urban. It was, Garcia demonstrates, modernity's determinations of unraced, heteronormative, and productive bodies, and of scientific truth that helped defer the realization of individual and political freedom in the world.

Listening, Thinking, Being Dec 29 2020 Although listening is central to human interaction, its importance is often ignored. In the rush to speak and be heard, it is easy to neglect listening and disregard its significance as a way of being with others and the world. Drawing upon insights from phenomenology, linguistics, philosophy of communication, and ethics, Listening, Thinking, Being is both an invitation and an intervention meant to turn much of what readers know, or think they know, about language, communication, and listening inside out. It is not about how to be a good listener or the numerous pitfalls that stem from the failure to listen. Rather, the purpose of the book is, first, to make readers aware of the value and importance of listening as a fundamental human ability inextricably connected with language and thought; second, to alert readers to the complexity of listening from personal, cultural, and philosophical perspectives; and third, to offer readers a way to think of listening as a mode of communicative action by which humans create and abide in the world. Lisbeth Lipari brings together historical, literary, intercultural, scientific,

musical, and philosophical perspectives, as well as a range of her own personal experiences, to produce this highly readable analysis of how “the human experience of being as an ethical relation with others . . . is enacted by means of listening.”

"An essential book for our times." -Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone*

At work, we're taught to lead the conversation. On social media, we shape our personal narratives. At parties, we talk over one another. So do our politicians. We're not listening. And no one is listening to us. Despite living in a world where technology allows constant digital communication and opportunities to connect, it seems no one is really listening or even knows how. And it's making us lonelier, more isolated, and less tolerant than ever before. A listener by trade, New York Times contributor Kate Murphy wanted to know how we got here. In this always illuminating and often humorous deep dive, Murphy explains why we're not listening, what it's doing to us, and how we can reverse the trend. She makes accessible the psychology, neuroscience, and sociology of listening while also introducing us to some of the best listeners out there (including a CIA agent, focus group moderator, bartender, radio producer, and top furniture salesman). Equal parts cultural observation, scientific exploration, and rousing call to action that's full of practical advice, *You're Not Listening* is to listening what Susan Cain's *Quiet* was to

introversion. It's time to stop talking and start listening. Listening & Caring Skills Dec 17 2019 The secret to leadership and transformation of a group--or of another person--is the quality of the relationship one person has with another. The effective group leader or counselor will be the person who learns how to listen to other people. By studying and employing listening skills, church leaders will engage others more compassionately, allowing them to feel that their needs are being met. These skills can be used with persons who are terminally ill, inactive at church, going through a divorce, in a family with a severely ill person, unemployed, seeking a new church, grieving, traumatized by catastrophe, going through teenage adolescence, in marriage counseling, or leading a ministry team. John Savage offers eleven specific and teachable listening skills for improving relationships among those who do ministry in small-group settings or when offering counsel to others. The skills are taught through oral exercises and unfailingly helpful examples from actual congregational situations. The skills include paraphrasing, productive questions, perception check, expression of feelings and emotions, fogging, negative inquiry, behavior description, and story listening.
