A concise dictionary of the most important military leaders in history, featuring detailed capsule biographies of 200 individuals from antiquity to the modern age. Included are military leaders known for their sheer genius (Genghis Khan, Frederick the Great, Napoleon); strategic ability (Wellington, Lee, Rommel, Eisenhower); incompetence or villainy (Custer, Budenny, Benedict Arnold); and administrative or theoretical mastery (Clausewitz, Liddel-Hart). Still others are included for their innovativeness (T. E. Lawrence), notoriety (Jeanne d'Arc, El Cid) or because, as with certain medieval figures, their

careers are a particularly apt reflection of their times. Written by two respected authorities in the field, it is both an ideal reference for military historians and a uniquely entertaining and browsable text for general readers. Lt. Gen. Tim Maude shares the distinction of being the highest ranking American soldier to lose his life in military action. But unlike Lesley J. McNair and Simon B. Buckner Jr., both lieutenant generals who died during World War II, the battle he died in was not one he expected. On Sept. 11, 2001, terrorists commandeered an American Airlines flight out of Dulles International Airport and crashed it into the southwest wall of the Pentagon, killing Maude and more than a hundred other military and civilian workers. Scores of other people were injured when the airliner ripped through the building at 530 miles per hour. At the time of his death, Maude served as the deputy chief of staff for personnel, the Army's chief executor of personnel policy and manager of the various programs affecting the strength and moral well-being of America's land forces. As one of only five members of the Army's Adjutant General's Corps to rise to the rank of lieutenant general, his story is one of triumph and celebration, and an abiding commitment to family, country, and service.

Douglas MacArthur was an American five-star general and Field Marshal of the Philippine Army. He was Chief of Staff of the United States Army during the 1930s and played a prominent role in the Pacific theater during World War II. He received the Medal of Honor for his service in the Philippines Campaign, which made him and his father Arthur MacArthur Jr., the first father and son to be awarded the medal. He was one of only five men ever to rise to the rank of General of the Army in the US Army, and the only man ever to become a field marshal in the Philippine Army. A biography that every student of military history should read. This book gives out the life, military career and military leadership of this great Military Commander. Egypt's most brilliant commander The acclaimed classic novel and fan favorite—the far-future story of one man's quest to discover the truth behind a galactic war hero. Lt Gen Sagat Singh is unarguably the only military genius post independence India has produced. He commenced his military career through humble beginnings in the Bikaner State Forces with only a smattering knowledge of English. At the outbreak of World War 2 he was commissioned as an officer and served in the Middle East with his Battalion and on staff. By the time the War was over he was the only officer to have done two staff courses, including the prestigious course at Quetta. On being absorbed into the Indian Army after Independence, he was transferred to 3rd Gorkha Rifles, where he commanded two battalions. He was given command of the Para Brigade on promotion and led it in the Goa Operations with aplomb. He was primarily responsible for liberating this Portuguese Colony. Sagat's drive and energy stood out. On promotion as Major General, he commanded 17 Mountain Division in Sikkim, where in 1967, in a bloody skirmish which lasted several days, he gave the Chinese a bloody nose, proving that the Indian Army was no pushover. That year he was transferred to Shillong and tasked to curb the Mizo Insurgency. In two years he succeeded in doing so effectively. In 1970, he was promoted to Lt Gen and given command of 4 Corps. It seemed his whole life was geared to leading a Corps into battle. In 1971, in a major logistic achievement he moved and staged his Corps at Agartala. When operations commenced to liberate Bangladesh, his Corps relentlessly attacked and defeated Pakistan forces, crossed river lines and terrain considered impassable. His innovative use of helicopters has never been repeated. His is the only example in the Indian Army of a successful corps level campaign, which can stand out historically. His knowledge of the operational art was perhaps without parallel. He retired in Dec 1974 and settled down in Jaipur, where till his death in 2001, he tried to ameliorate the lives of ex-servicemen and his people. His achievements were recognised by the Government of Bangladesh, when the President, publicly and formally honoured his son and daughter-in-law in Mar 2013. This biography of the Roman Emperor Caracalla challenges his tyrannical reputation with a revealing narrative of his social reforms and military campaigns. Caracallahas one of the worst reputations of any Roman Emperor. Many ancient historians were very hostile, and the 18th century English historian Edward Gibbon even dubbed him the common enemy of mankind. Yet his reign was considered by at least one Roman author to be the apogee of the Roman Empire. He was guilty of many murders and massacres—including that of his own brother, ex-wife and daughter. Yet he instituted the Antonine Constitution, granting citizenship to all free men in the Empire. He was also popular with the army, improving their pay and cultivating the image of sharing

their hardships. Historian Ilkka Syvanne explains how the biased ancient sources in combination with the stern looking statues of the emperor have created a distorted image of the man. He then reconstructs a chronology of Caracalla's reign, focusing on his military campaigns and reforms, to offer a balanced view of his legacy. Caracalla offers the first complete overview of the policies, events and conflicts he oversaw and explains how and why these contributed to the military crisis of the third century. This book offers a compilation of biographies of the world's leading soldiers, sailors and airmen, from earliest times right up to the Gulf War. From Agrippa to Zhukov via Cromwell, Hitler, Napoleon, and Schwarzkopf, the 3,000 entries in this reference work provide detailed profiles of the world's greatest military leaders and thinkers. Excerpt from Stonewall Jackson: A Military Biography In relation to his intellectual faculties, his associates are unanimous in declaring that he exhibited no indications what ever of his future career. They gave him credit for an amount of industry and energy which would enable him to accomplish much, but there is nothing to Show that his most intimate friends at this time suspected him of possessing any thing resembling military genius. Lieutenant General Sir Thomas Daly was a renowned soldier and one of the most influential figures in Australia's military history. As Chief of the General Staff during the Vietnam War, he oversaw a significant re-organisation of the Army as he fought a war under political and resource restrictions. In this unique biography, Jeffrey Grey shows how Daly prepared himself for the challenges of command in a time of great political upheaval. A Soldier's Soldier examines Daly's career from his entry to Duntroon in the early 1930s until his retirement forty years later, covering the key issues in the development of the Australian Army along the way. Drawing on extensive interview transcripts, the book provides a compelling portrait of Sir Thomas Daly and his distinguished career.

The Romans' destruction of Carthage after the Third Punic War erased any Carthaginian historical record of Hannibal's life. What is known of him comes exclusively from Roman historians who had every interest in minimizing his success, exaggerating his failures, and disparaging his character. The charges leveled against Hannibal include greed, cruelty and atrocity, sexual

indulgence, and even cannibalism. But even these sources were forced to grudgingly admit to Hannibal's military genius, if only to make their eventual victory over him appear greater. Yet there is no doubt that Hannibal was the greatest Carthaginian general of the Second Punic War. When he did not defeat them outright, he fought to a standstill the best generals Rome produced, and he sustained his army in the field for sixteen long years without mutiny or desertion. Hannibal was a first-rate tactician, only a somewhat lesser strategist, and the greatest enemy Rome ever faced. When he at last met defeat at the hands of the Roman general Scipio, it was against an experienced officer who had to strengthen and reconfigure the Roman legion and invent mobile tactics in order to succeed. Even so, Scipio's victory at Zama was against an army that was a shadow of its former self. The battle could easily have gone the other way. If it had, the history of the West would have been changed in ways that can only be imagined. In this publication, the author shows how Hannibal's genius nearly unseated the Roman Empire. How a country gentleman with no military experience rose to become the greatest general of the English Civil War Winner of the Douglas Southall Freeman History Award, Gentleman and Soldier is the first biography in more than fifty years of Wade Hampton III (1818-1902), a Confederate general whose life provides a unique, sweeping insight into the entire history of the Civil War in the South. Hampton was a leading citizen of South Carolina before the war and the highest-ranking cavalry leader on either side during the war. He fought in a remarkable number of battles from Antietam to Gettysburg to Bentonville and after the war served as governor of South Carolina and in the U.S. Senate. Hampton's life, however, was one of dramatic contradictions. He was the quintessential slave owner who nonetheless questioned the ethical underpinnings of the "peculiar institution." He was a prewar spokesperson for national unity but became an avid secessionist. He condemned violence and abhorred dueling, but he probably killed more opponents in battle than any other general with the possible exception of Nathan Bedford Forrest. He "redeemed" South Carolina from Reconstruction but then extended more political benefits to African Americans than any other Democratic governor in the postwar South. For more than forty years he gave selflessly of himself to his state and his community, not only when wealthy but also when teetering on the abyss of poverty. Edward G. Longacre has written twenty-three books on the Civil War. His book *The Cavalry at Gettysburg*, available in a Bison Books edition, won the Fletcher Pratt Award as the best book of Civil War nonfiction. He is also the author of *Pickett, Leader of the Charge* and *Lee's Cavalrymen*, a main selection of the History Book Club. *Hanging Sam* chronicles the life of Lt. General Samuel T. "Hanging Sam" Williams, who, after being relieved of his duties as Assistant Division Commander of the 90th Infantry Division and demoted

from the rank of brigadier general following the 1944 Normandy invasion, persevered to recover not only his lost star but two additional ones as well, an accomplishment unmatched in modern U. S. Army history. Following enlistment in the Texas Militia in 1916 to fight Pancho Villa along the U.S.-Mexican border, Williams served in both World Wars, the Korean War (where he commanded the 25th Infantry Division), and Vietnam (where from 1955 to 1960 he was Chief of the U. S. Military Assistance and Advisory Group). Wounded twice in battle, Williams was decorated with every medal for valor the Army awards, except the Medal of Honor. Collection of short biographical sketches of the major figures of the Revolutionary War on both sides of the conflict. Includes an overview of the root causes of the American Revolution, from the American viewpoint, as well as a longer biography of Revolutionary War General Lafayette. Sally Tompkins was a very wealthy young woman who was a nurse that owned and ran her own private hospital in Richmond, Virginia during the American Civil War. The hospital had the highest survival rate of any hospital north or south. This statistic was even more remarkable considering that the worst cases were sent to her. She was also commissioned as Captain in the Confederate Cavalry because, by law, all hospitals had to be under military rule to be able to receive medical supplies. She took her rank seriously. She was adored by the Confederate troops and received probably hundreds of marriage proposals, all of which she declined. It was said that "her strength of mind and character took the place of more frivolous charms." Capt. Sally Tompkins demonstrated that women were capable of doing so many things that, in this time period, women were thought incapable of doing. As a hospital administrator, she challenged gender expectations and helped to expand the role of women in all management positions. The only full-length biography of Robert E. Lee's nephew, the youngest-and ablest-cavalry commander of the Confederate Army This in-depth and forthright biography examines the personal and professional life of General David Petraeus, today's most prominent military leader. * A chronology of General Petraeus's assignments and awards * A bibliography of valuable print resources and works by Petraeus himself Revealing the little-known facts of Harry Truman's remarkable military performance, as a soldier and as a politician, The Soldier from Independence adds a whole new dimension to the already fascinating character of the thirty-third president of the United States. D. M. Giangreco shows how, as a field artillery battery commander in World War I, Truman was already making the hard decisions that he knew to be right, regardless of personal consequences. Truman oversaw the conclusion of the Second World War, stood up to Stalin, and met the test of North Korea's invasion of the South. He also had the fortitude to defy Gen. Douglas MacArthur, one of America's most revered wartime leaders, and ultimately fired the Far East commander, often characterized as the American Caesar.

Filling in the details behind these world-changing events, this military biography supplies a heretofore missing--and critical--chapter in the story of one of the nation's most important presidents. The Soldier from Independence recounts the World War I military adventure that would mark a turning point in the life of a humble man who would go on to become commander in chief. Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy. This is a reproduction of the original artefact. Generally these books are created from careful scans of the original. This allows us to preserve the book accurately and present it in the way the author intended. Since the original versions are generally quite old, there may occasionally be certain imperfections within these reproductions. We're happy to make these classics available again for future generations to enjoy! The Life of Major General Zachary Taylor is a great biography of America's 12th president. Montgomery's biography includes a short history of the Taylor family, and focuses on his military career rather than time as president. A table of contents is included. The view of an anonymous soldier at Waterloo became the judgement of the world on the man who was hailed as the first general of his age. Wellington taught himself the art of war in India where his hard-fought victories helped lay the foundations of the British Raj. His armies liberated Portugal and Spain, shattered the myth of French invincibility and inspired the people of Europe to

resist Napoleon. This is also the story of a humane, intelligent and acerbic aristocrat who created the remarkable intelligence and logistical services that were the keys to his victories. Those victories, in turn, led to his being honoured by his countrymen who saw him as 'the highest incarnation of English character'. Largely drawn from original sources, *The Iron Duke* explores the life of Wellington the soldier, explaining how he waged war and why he won battles. Praise for *The Iron Duke*: 'It's a cracking trot through the great Duke's military career - and gives due attention to the early Flanders and Indian campaigns - and puts it (and him) into its political and social context. Not uncritical, it highlights his genius and covers key topics such as intelligence and logistics comprehensively for such a modest volume' - Goodreads review

Lawrence James is a British historian, writer and the author of *The Savage Wars: British Campaigns in Africa, 1870-1920* and *The Golden Warrior: The Life and Legend of Lawrence of Arabia*.
