The first time I laid eyes on Jackson Knight, the bossy billionaire next door, he gave me an intense, panty-dropping stare with those mesmerizing, sky-blue, brooding eyes. The second time, I trespassed onto his penthouse balcony to retrieve a wayward, high-strung Shih Tzu I was pet-sitting for his neighbor. Jackson warned me never to do that again, or next time he'd punish me and make me pay. Well, dogs will be dogs. It happened again. And I found out he wasn't lying about punishing me. When the first Corvette was introduced to the public through the travelling caravan known as Motorama, everyone knew there was something special about it. Each subsequent model continued to strengthen that position. But how do you upgrade America's favorite sports car? Make it a special edition! Special edition Corvettes are the tip of the spear when it comes to the American auto manufacturers special models. Luminous cars such as the 1967 L88 convertible, 1969 aluminum block ZL1, and 2015 Z06 #001 have all commanded a million dollars or more. Modern dealer-tuned cars from Lingenfelter, Calloway, and Hennessey have carried the tradition of making a great Corvette even better. Extremely low mileage on 1978 Pace Cars indicate that people have thought of these cars as investments for nearly 40 years. Keith Cornett of Corvetteblogger.com compiles a murderer's row of special-edition Corvettes in this first-ever compilation on the subject. This book is an encyclopedia of information, as you will learn about some of the rarest Corvettes on the planet. It will serve as a guide if you're looking to add one of these special machines to your collection. Everything you've ever wanted to learn about collectible Corvettes is in Corvette Special Editions. Jamie MacAlister has a need for speed. Now she's making a break from the illegal racing circuit to run a professional driving service. That's right...Jamie is a getaway girl. To further complicate things, her own people—the good guys?—have just double-crossed her. What's the world coming to when the very sexy Sacha Vital, perhaps the baddest of all bad guys, might be the only one she can trust? Maybe fate will decide, because Jamie's not about to put on the brakes for anyone.... In "Darkest Angel," Lysander meets Bianka, who is

determined to lead him into temptation; and in "Shadow Hunter," vampire hunter Damon Brock and Tiffany Solow, another hunter, are forced to unite against the local covens. Reprint. We fuel the need for speed! Desire for Revenge & A Debt Paid in Passion by Penny Jordan released on Sep 11, 2017 is available now for purchase. The world's foremost expert on pricing strategy shows how this mysterious process works and how to maximize value through pricing to company and customer. In all walks of life, we constantly make decisions about whether something is worth our money or our time, or try to convince others to part with their money or their time. Price is the place where value and money meet. From the global release of the latest electronic gadget to the bewildering gyrations of oil futures to markdowns at

the bargain store, price is the most powerful and pervasive economic force in our day-to-day lives and one of the least understood. The recipe for successful pricing often sounds like an exotic cocktail, with equal parts psychology, economics, strategy, tools and incentives stirred up together, usually with just enough math to sour the taste. That leads managers to water down the drink with hunches and rules of thumb, or leave out the parts with which they don't feel comfortable. While this makes for a sweeter drink, it often lacks the punch to have an impact on the customer or on the business. It doesn't have to be that way, though, as Hermann Simon illustrates through dozens of stories collected over four decades in the trenches and behind the scenes. A world-renowned speaker on pricing and a trusted advisor to Fortune 500 executives, Simon's lifelong journey has taken him from rural farmers' markets, to a distinguished academic career, to a long second career as an entrepreneur and management consultant to companies large and small throughout the world. Along the way, he has learned from Nobel Prize winners and leading management gurus, and helped countless managers and executives use pricing as a way to create new markets, grow their businesses and gain a sustained competitive advantage. He also learned some tough personal lessons about value, how people perceive it, and how people profit from it. In this engaging and practical narrative, Simon leaves nothing out of the pricing cocktail, but still makes it go down smoothly and leaves you wanting to learn more and do more—as a consumer or as a business person. You will never look at pricing the same way again.
