'Collins First Atlas' is a fun, simple atlas for 4-6 year olds which provides an introduction to basic geographical and atlas vocabulary. Bright, colourful mapping covers the British Isles, Europe and the wider world, and clear, simple text accompanies each map. Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well. An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students. Prepared specifically to support social studies and geography courses at upper primary and lower secondary levels throughout the Caribbean. The atlas is fully illustrated and includes the most up to date reference and thematic mapping of the countries within the Caribbean Community as well as the broader Caribbean region. Maps are fully supported with illustrations, photographs and data. World maps cover international issues which have a bearing on

Caribbean development. Collins World in Maps is a multi-topic atlas of the world, which introduces the most relevant physical and human topics to reflect the Geography Key Stage 2-3 requirements of the National Curriculum. and data boxes, with detailed map keys and scale information on each map. \* Specially selected topic maps give additional information linking to knowledge and understanding of distant places. \* Tables of key world country data include an Ecological Footprint figure for each country. A colourful, engaging world atlas ideal for home or classroom especially designed for students in grades 5-8. Packed with full-colour maps, photographs, and easy-to-use charts and graphs. Includes thematic maps of continental drift, the ocean floor, the environment and natural resources, as well as a special Map Skills section introducing key geography concepts. Published with ISME, ITTO and project partners FAO, UNESCO-MAB, UNEP-WCMC and UNU-INWEH This atlas provides the first truly global assessment of the state of the world's mangroves. Written by a leading expert on mangroves with support from the top international researchers and conservation organizations, this full colour atlas contains 60 full-page maps, hundreds of photographs and illustrations and a comprehensive country-by-country assessment of mangroves. Mangroves are considered both ecologically and from a human perspective. Initial chapters provide a global view, with information on distribution, biogeography, productivity and wider ecology, as well as on human uses, economic values, threats, and approaches for mangrove management. These themes are revisited throughout the regional chapters, where the maps provide a spatial context or starting point for further exploration. The book also presents a wealth of statistics on biodiversity, habitat area, loss and economic value which provide a unique record of mangroves against which future threats and changes can be evaluated. Case-studies, written by regional experts provide insights into regional mangrove issues, including primary and potential productivity, biodiversity, and information on present and traditional uses and values and sustainable management. Understand the world today through maps; find places in the world, explore countries, get to grips with graphs and discover world themes. Collects together data compiled from 177 World Health Organization Member States/Countries on mental health care. Coverage includes policies, plans and laws for mental health, human and financial resources available, what types of facilities providing care, and mental health programmes for prevention and promotion. This primary world atlas provides an introduction to mapping of the UK, Europe and all major regions of the world. It includes information on map reading skills, the meaning of scale and measuring distances. Reference maps are supported with national flags and basic national statistics. This introductory atlas for secondary school students aged 11-14 is designed to help students develop map, atlas and data handling skills. The content adheres closely to the requirements of the National Curriculum and incorporates results of classroom testing. Its clear and accessible layout will motivate pupils of all abilities at Key Stage 3 and S1-S2. An easy to follow introductory 'map and atlas skills' section, useful for both teacher and pupil, is followed by clear, easy to read reference maps presented with locator maps, fact boxes and flags, descriptive text, detailed map keys and photos. Carefully selected focus country studies include mapping on contrasting regions and special topics. The latest available country-by-country statistics are listed in a separate section and the index includes full latitude and longitude values. The extended world section in this edition covers all the global issues required by the National Curriculum e.g. climate, population, biomes, earthquakes and volcanoes. Colour coding of the titling and marginalia aids the identification of the sections within the atlas. A curriculum-supportive Primary World Atlas for children aged 7-11 years (Key Stage 2). Designed for use in the classroom or at home, this revised edition includes informative politically coloured reference mapping of all major world regions.
