The Statute of the International Court of Justice Apr 05 2021 The International Court of Justice is the principal judicial organ of the United Nations and plays a central role in both the peaceful settlement of international disputes and the development of international law. This first ever comprehensive Commentary on the Statute of the International Court of Justice, analyses in detail not only the Statute of the Court itself but also the related provisions of the United Nations Charter as well as the relevant provisions of the Court's Rules of Procedure. The Commentary provides a comprehensive overview and analysis of all legal questions and issues the Court has had to address in the past and will have to address in the future. It illuminates the central issues of procedure and substance that the Court and counsel appearing before it face in their day-to-day work. In addition to commentary covering all of the articles of the Statute of the ICJ, plus the relevant articles of the Charter of the United Nations, the book includes three scene-setting chapters: Historical Introduction, General Principles of Procedural Law, and Discontinuation and Withdrawal. The combination of expert editors and commentators and the central importance of the work of the ICJ will make this a landmark publication in the field of international law.

Compulsory Jurisdiction, International Court of Justice Sep 10 2021 Considers S. Res. 94, to require U.S., in effect, to accept jurisdiction of International Court of Justice in legal matters

involving breach of treaty or international obligations and questions of international law. *The International Court of Justice* May 06 2021 *National Remedies Before the Court of Justice* Nov 12 2021 The Court of Justice has delivered an extensive body of caselaw concerning the obligation of domestic courts to provide effective judicial protection to claimants relying upon Community law rights - including such landmark judgments as *Factortame* and *Francovich*. This book offers a critical analysis of the Court's fast-changing approach to national procedural autonomy, and explores the difficult conceptual framework underpinning the caselaw. The author demonstrates how Community intervention in the domestic systems of judicial protection cannot remain unaffected by wider debates about the evolving European integration project, in particular, the tension between uniformity and differentiation as competing values influencing the exercise of Community regulatory competence. Because of its emphasis on an ideal of uniformity which has become increasingly untenable within the contemporary Community legal order, much of the existing academic discourse about national remedies and procedural rules now seems ripe for reconsideration. It is argued that the Court's jurisprudence on the decentralised enforcement of Treaty norms needs to be interpreted afresh, having regard to the recent growth of regulatory differentiation within the Community system. *National Remedies Before the Court of Justice* provides a challenging account of this crucial field of EU legal studies. It includes detailed discussion of issues such as Member State liability in damages, Community control over national limitation periods, and the principles governing state aid and competition law enforcement. This book is of value to academics and practitioners alike.

Judicial Function Aug 29 2020 This book evaluates the concept of the function of law through the prism of the International Court of Justice. It goes beyond a conventional analysis of the Court's case law and applicable law, to consider the compromise between supranational order and state sovereignty that lies at the heart of its institutional design. It argues that this compromise prevents the Court from playing a progressive role in the development of international law. Instead, it influences the international legal order in more subtle ways, in particular, in shaping understanding of the nature or form of the international legal order as a whole. The book concludes that the role of the Court is not to advance some universal conception of international law but rather to decide the cases before it in the best possible way within its institutional limits, while remaining aware of law's deeper theoretical foundations. The book considers three key elements: firstly, it examines the historical aspects of the Court's constitutive Statute, and the manner in which it defines its judicial character. Secondly, it considers the drafting process, the function of a dissenting opinion, and the role of the individual judge, in an attempt to discern insights on the function of the Court. Finally, the book examines the Court's practice in regard to three conceptual issues which assist in understanding the Court's function: its theory of precedent; its definition of the 'international community'; and its theory on the completeness of the international legal order.

The Court of Justice of the European Coal and Steel Community Dec 21 2019 THE CREATION OF THE COURT OF JUSTICE OF THE EUROPEAN COAL AND STEEL COMMUNITY On 9th May, 1950, M. Robert Schuman, the then Foreign Minister of France, speaking at a Press Conference in Paris, outlined the idea of establishing a Community within Europe to control the production of coal and steel. "The French Government", he stated, "propose to place the whole of the Franco-German production of coal and steel under a common high authority within an organisation open to the participation of other countries of Europe ... This will form the first concrete step

towards a European Federation, which is indispensable for peace" 2. This statement, apart from the specific mention of a high authority, does not mention any proposed organs of such a Community, and, as will appear, no firm idea of the Community's structure existed at all at that date. Six weeks after this announcement in Paris, a Conference composed of the six States that were to form the Coal and Steel 4 Community³ met under the presidency of M. Monnet • This Conference continued its work "consciencieux et discret, rue 5 Martignac" until March, 1951 • The first reference that one finds to a judicial organ to control the activity of the Community is contained in the document submitted by the Commissariat general au Plan 6. When compared with 1 The term is given in small letters as a description rather than as a title. 2 Bulletin Quotidien, 11th May, 1950.

The International Court of Justice in Maritime Disputes Jul 28 2020 The origins of the maritime dispute between Chile and Peru go back to 1952, when these countries, along with Ecuador, asserted sovereignty over 200 nautical miles from their coasts. This maritime claim is widely regarded as one of the most important contributions by a group of developing countries to the law of the sea. Peru then asked the Court of International Justice to delimit its lateral boundary with Chile in accordance with principles of international law. Chile asked the Court to dismiss the request. The question before the ICJ Justice was whether the treaty concluded by the parties when they made their claim had also delimited their lateral boundary. This book provides a critical analysis of the approach to treaty interpretation by the International Court of Justice in Maritime Disputes. Focusing on the case of Chile and Peru, the book explores two main issues: the

interpretation of the Santiago Declaration and its connected treaties; and the tacit agreement that established a lateral maritime boundary with a seaward extension of 80 nautical miles. Part I argues that the Court's finding that the Santiago Declaration did not delimit the lateral boundary is mistaken because it ignores its context, as well as its object and purpose. Part II argues that the finding that the parties had entered into a tacit agreement is an unjustified legal inference derived from a hasty interpretation of the Special Agreement of 1954. It questions that the reliability of the evidence used to determine the seaward extent of the lateral boundary and argues that the Court failed to demonstrate the bearing of contemporaneous developments in the law of the sea on the content of the tacit agreement.

The Court of Justice and European Criminal Law Aug 09 2021 The aim of this book is to provide an insight into the landmark rulings of the Court of Justice of the European Union (CJEU) in European Criminal Law (ECL). As in other areas of EU law, the decisions of the CJEU have been a driving force for development and integration. By analysing the impact of these leading cases on EU and national law, the book provides a diachronic and multifaceted picture of the Court's approach to criminal law.

Court Justice Oct 23 2022 "Like Curt Flood and Oscar Robertson, who paved the way for free agency in sports, Ed O'Bannon decided there was a principle at stake... O'Bannon gave the movement to reform college sports...passion and purpose, animated by righteous indignation." —Jeremy Schaap, ESPN journalist and New York Times bestselling author In 2009, Ed O'Bannon, once a star for the 1995 NCAA Champion UCLA Bruins and a first-round NBA draft pick, thought he'd made peace with the NCAA's exploitive system of "amateurism." College athletes generated huge profits, yet—training nearly full-time, forced to tailor coursework around sports, often pawns in corrupt investigations—they saw little from those riches other than revocable scholarships and miniscule chances of going pro. Still, that was all in O'Bannon's past...until he

saw the video game NCAA Basketball 09. As avatars of their college selves—their likenesses, achievements, and playing styles—O’Bannon and his teammates were still making money for the NCAA. So, when asked to fight the system for players past, present, and future—and seeking no personal financial reward, but rather the chance to make college sports more fair—he agreed to be the face of what became a landmark class-action lawsuit. Court Justice brings readers to the front lines of a critical battle in the long fight for players’ rights while also offering O’Bannon’s unique perspective on today’s NCAA recruiting scandals. From the basketball court to the court of law facing NCAA executives, athletic directors, and “expert” witnesses; and finally to his innovative ideas for reform, O’Bannon breaks down history’s most important victory yet against the inequitable model of multi-billion-dollar “amateur” sports.

We the Court Dec 13 2021 The need to balance power between the Member States and the Union and between public power and the market has created powerful constitutional dilemmas for the European Union. Adopting an interdisciplinary approach and drawing upon the jurisprudence developed around Article 30, this new book offers both a descriptive and a normative analysis of the European Economic Constitution and discusses the role of the European Court of Justice in its development and in the review of State and Community legislation. The book is particularly relevant in view of the present debates on the European Constitution and the reform of the regulatory State.

In Pursuit of Justice May 18 2022 As Justice William Brennan observes in his foreword, state courts are in some critical ways more important than federal courts in deciding controversies which affect the lives of ordinary citizens. Yet,

outside of technical legal materials, little attention is paid to their role in shaping the law. Joseph R. Grodin seeks to fill this vacuum. A law professor and former justice of the California Supreme Court, Grodin was removed from the bench in 1986 along with Chief Justice Rose Bird and Justice Cruz Reynoso after a highly publicized campaign that focused on their decisions in death penalty cases. Drawing on his own experience, and in a lively style spiced with anecdotes and aimed at a general audience, Grodin writes about state appellate courts with insights that only a former justice could provide. Grodin begins with a reflection on the perspective of the bench, addressing such questions as how judges view the arguments of lawyers and how appellate courts cope with an ever-increasing caseload. He describes his own elevation up the judicial ladder and points out significant aspects of the landscape along the way. In Part Two he discusses the judicial functions that are more or less distinctive to state courts, using case descriptions to illustrate the history and development of the common law, the significance of state constitutions for the protection of individual liberties, the special problems posed by enactment of laws through the initiative process, and the dilemmas surrounding the administration of the death penalty. In Part Three he confronts a perennial and vastly important question--do judges make law? Grodin argues that in a sense they do, but only within a framework of constraints that make the process quite different from legislative lawmaking. Moreover, the nature of judicial lawmaking varies from context to context, and it has different dimensions in the state systems than in the federal. Finally, Grodin discusses the election process which is used in most states to decide upon selection or retention of judges. He argues that elections pose a threat to judicial independence, and he considers several alternatives to the current system. This engaging book offers a fascinating look at the courts and will appeal to anyone interested in how judges think about the law.

Fifty Years of the International Court of Justice Nov 24 2022 To mark the fiftieth anniversary of the International Court of Justice, a distinguished group of international judges, practitioners and academics has undertaken a major review of its work. The chapters discuss the main areas of substantive law with which the Court has been concerned, and the more significant aspects of its practice and procedure in dealing with cases before it. It discusses the role of the Court in the international legal order and its relationship with the political organs of the United Nations. The thirty-three chapters are presented under five headings: the Court; the sources and evidence of international law; substance of international law; procedural aspects of the Court's work; the Court and the United Nations. It has been prepared in honour of Sir Robert Jennings, judge and sometime President of the Court.

The European Court of Justice and International Courts Aug 21 2022 The Court of Justice of the European Union has exclusive jurisdiction over European Union law and holds a broad interpretation of these powers. This, however, may come into conflict with the jurisdiction of other international courts and tribunals, especially in the context of so-called mixed agreements. While the CJEU considers these 'integral parts' of EU law, other international courts will also have jurisdiction in such cases. This book explores the conundrum of shared jurisdiction, analysing the international legal framework for the resolution of such conflicts,

and provides a critical and comprehensive analysis of the CJEU's far-reaching jurisdiction, suggesting solutions to this dilemma. The book also addresses the special relationship between the CJEU and the European Court of Human Rights. The unique interaction between these two bodies raises fundamental substantive concerns about overlaps of jurisdiction and interpretation in the courts. Conflicts of interpretation manage largely to be avoided by frequent cross-referencing, which also allows for much cross-fertilization in the development of European human rights law. The link between these two courts is the subject of the final section of the book.

Great Judgments of the European Court of Justice Jun 07 2021 Great Judgments of the European Court of Justice presents a new approach to understanding the landmark decisions of the European Court of Justice in the 1960s and 1970s. By comparing the Court's doctrines to the enforcement and escape mechanisms employed by more common forms of trade treaty, it demonstrates how the individual rights created by the doctrine of direct effect were connected to the practical challenges of trade politics among the European states and, in particular, to the suppression of unilateral safeguard mechanisms and inter-state retaliation. Drawing on the writings and speeches of French Judge and President of the Court, Robert Lecourt, it demonstrates that one of the Court's most influential judges shared this understanding of the logic of direct effect. This book offers a distinctive interpretation of the Court of Justice's early years, as well as of the purpose of the fundamental principles of European law.

Regional Integration and Courts of Justice Dec 25 2022 The success of European integration and the political stability and economic prosperity it offers to its members has found followers elsewhere. Several countries in different parts of world have been inclined to

embark on projects of regional integration. Though the majority of them are limited to economic integration objectives, some, in particular, regional groups in Latin America, profess to attain ambitious political goals and are constructed emulating the EU institutional structure. In some cases, this structure includes a regional court of justice, entrusted with telling community law and solving differences between Member States. The aim of this book is to study the importance of such courts of justice as institutional actors for the development of regional integration. In such a project, the study of the EU and the European Court of Justice immediately presents itself as most relevant and important. However, the book expands the study beyond an examination of the EU to encompass a comparative approach with other regional courts of justice, in particular the Central American Court of Justice and, subsidiarily, the Andean Court of Justice. Such a comparison allows both to assess the important differences between the courts as well as between the integration processes and to draw certain common features at present and for the future institutional evolution of other regional integration blocs. Katrin Nyman-Metcalf has a PhD in Law from Uppsala University in Sweden, specialised in Public International and EU law. She is Associate Professor at Riga Graduate School of Law, Latvia, and Concordia University, Estonia, as well as visiting professor at several other European universities. Apart from the academic work, she works as a legal consultant mainly in East and Central Europe with legislation, institution building and EU accession preparation. Ioannis Papageorgiou has studied Law in Athens, Comparative Politics in Paris and holds a PhD in Development Cooperation, with specialization in Latin America, from the Université Libre de Bruxelles (ULB). He is an attorney-at-law in Athens, a consultant on migration and refugee matters and, since 2002, he teaches international migration in the School of Sociology of the University of the Aegean. He also taught EU Politics and Constitution in the Aristotle University of Thessaloniki.

The International Court of Justice and Municipal Courts May 26 2020 Recent decades have brought international and municipal courts much closer together and induced a meaningful cooperation. This holds true also for the International Court of Justice and domestic judicial institutions as they engage actively in an inter-judicial dialogue, particularly on the normative level. Due to the impact of globalization and internationalization, the World Court has expanded its jurisprudence to accommodate as well references and analysis of external judicial organs and their pronouncements. Likewise, ICJ decisions are referred to and consulted by municipal courts as authoritative statements of international norms or assistance in fact determination. This monograph examines this inter-judicial dialogue in a comprehensive and broad manner by identifying and analysing all its aspects as evidenced in their respective jurisprudence. Surprisingly, the mutual conversation in judicial decisions between the World Court and national judicial institutions has drawn minimal attention from international legal scholarship and the book is designed to fill this lacuna.

National Courts and Preliminary References to the Court of Justice Jun 19 2022

This innovative book examines why national courts refer preliminary references to the European Court of Justice (ECJ), and what the referring court does with the answers. Jasper Krommendijk highlights the three core stages in the interaction between national courts and the ECJ: question, answer and follow-up, shedding new light on this under-explored area.
