Faced with failing health and financial ruin, the Civil War's greatest general and former president wrote his personal memoirs to secure his family's future - and won himself a unique place in American letters. Devoted almost entirely to his life as a soldier, Grant's Memoirs traces the trajectory of his extraordinary career - from West Point cadet to general-in-chief of all Union armies. For their directness and clarity, his writings on war are without rival in American literature, and his autobiography deserves a place among the very best in the genre. Wilkie Collin's intriguing story about a blind girl, Lucilla Finch, and the identical twins who both fall in love with her, has the exciting complications of his better known novels, but it also overturns conventional expectations. Using a background of myth and fairy-tale to expand the boundaries of nineteenth century realist fiction, Collins not only takes a blind person as his central character but also explores the idea of blindness and its implications. His sensitive presentation of the difficulties, disappointments, and occasional delights which follow the recovery of sight by someone blind since infancy is still one of the best accounts in fiction of a problem which continues to intrigue philosophers, psychologists, and the general public, as it has done since it was first discussed by Locke and Berkeley in the eighteenth century. Tell kids not to worry. sorting my life out. be in touch to get some things. Instead of being a simple sms message, this text turned out to be crucial and chilling evidence in convicting the deceptive killer of a mother of two. Sent from her phone, after her death, tell tale signs announce themselves to a forensic linguist. Rarely is a crime committed without there being some evidence in the form of language. Wordcrime features a series of chapters where gripping cases are described - involving murder, sexual assault, hate mail, suspicious death, code deciphering, arson and even genocide. Olsson describes the evidence he gave in each one. In approachable and clear prose, he details how forensic linguistics helps the law beat the criminals. This is fascinating reading for anyone interested in true crime, in modern, cutting-edge criminology and also where the study

of language meets the law. The People of East London comprises 50 colour illustrations by Adam Dant that celebrate and gently mock the array of characters you may possibly meet in East London. Sable Island, a small island off the coast of eastern Canada, is the site of some 500 wild horses, 500 shipwrecks, and 500 years of known history. Never settled, the island, also known as the Graveyard of the Atlantic, has seen temporary occupation by shipwrecked sailors, transported convicts, pirates, and wreckers. The wild horses, named for the island they inhabit, abandoned there long ago or cast ashore from wrecks, are now the only terrestrial mammals on Sable Island. Roeberto Dutesco's 20 years' documentation of Sable Island comes to you as a stunning volume of photographs, an unprecedented collection of extraordinary moments in a place uninhabited by humans, where the wild horses run free, unaware and unafraid of man. Dutesco portrays the wild beauty of these horses as well as the barren and unspoiled quality of the island, creating an immersive photographic memoir that captures the soul and spirit. The Romanian-born Canadian photographer's aim is to document and record this enchanted place for posterity, for our children's children, as an important place in Earth's history, and more so in our current moment, when unique wild places are vanishing. It is Dutesco's life project, celebrating the beauty he encountered in a place forgotten by time, desire, and conquest -- Sable Island. Text in English, German, French, Spanish and Chinese.
