Muovendo dalla convinzione del ruolo guida della pittura rispetto alle altre arti greche, il Progetto Nazionale di Ricerca costituito da cinque Università italiane (Bari, Messina, Pavia, Perugia, Roma Tre) si è proposto come oggetto di studio la diffusione del linguaggio pittorico ellenistico in occidente. Dopo la presentazione dei primi risultati in occasione del XVII Congresso Internazionale di Archeologia Classica di Roma (settembre 2008), oggi viene pubblicato questo volume che si avvale anche del contributo di altri progetti di ricerca universitari, italiani e stranieri, e delle Soprintendenze di Sicilia e dell'area vesuviana. L'opera analizza come la diffusione di questo nuovo linguaggio dia esiti differenti nelle diverse aree prese in considerazione (Sicilia, Apulia, Etruria, Campania, Roma) entrando in rapporto con le varie tradizioni locali consolidate. Viene affrontato il problema cronologico, reso tanto più ostico dalla scarsità della documentazione disponibile, avanzando ipotesi che prendono consistenza sulla base di nuove indagini stratigrafiche come quelle condotte a Finziade e nelle abitazioni dei livelli tardo-repubblicani di Pompei con particolare riguardo alla presenza dello stile strutturale. Gli studi dedicati ai primi sistemi di decorazione parietale in stucco dipinto e ai mosaici pavimentali figurati danno inoltre un contributo alla conoscenza dei temi della pittura greca che si sono in questo modo conservati e arricchisce la documentazione costituendo la base per nuove future ricerche. Qu'ont en commun la Chanson de Roland, le Roman de Renart, le rôle revendiqué par le comte Spencer auprès de ses neveux lors des obsèques de sa sœur, la princesse Diana, ou la place de saint Joseph dans les tables des saints siciliennes? Cette apparente devinette pour initiés, qui ressemble à un inventaire à la Prevert, a pour solution une intéressante situation anthropologique révélée par Salvatore D'Onofrio sous l'intitulé : inceste du troisième type, ajoutant ainsi une extension nouvelle à la définition de l'inceste. C'est, pour le situer dans sa forme centrale, le rapport sexuel possible entre un « compère » et une « commère », c'est-à-dire entre le parrain d'un enfant et la mère de celui-ci. Ce type de relation spirituelle, équivalente à la relation frère-sœur dans ses effets, s'inscrit dans un nouvel atome de parenté où le parrain prend la place structurellement occupée par l'oncle maternel. La presente obra pretende incorporar a los estudios fenicios un tipo de trabajo que ha resultado extremadamente fructífero en otras especialidades. Una aproximación característica que hace del hombre o los hombres de una determinada época o cultura el objeto principal de su estudio, mediante

la presentaci ó n de diferentes perfiles, tipos o personajes. Una forma de trabajo que permite a la vez, profundizar en aspectos particulares de la cultura estudiada y reflexionar sobre ella y sobre nuestras formas de comprenderla, situando al hombre en el centro de toda atenci ó n. Pathbreaking essays challenging the traditional focus on the eastern Mediterranean in the Hellenistic period and on Rome in the West. As the first of its kind this collective work offers an introduction to the sources, problems and investigation methods relating to the Phoenician and the Punic civilization. Meant for research and university education this manual presents a critical synthesis of the studies in this field (bibliography, illustrations, maps and indexes). Most volumes include a separately paged section: Bibliografia paleontologica italiana. This volume brings together scholars in religion, archaeology, philology, and history to explore case studies and theoretical models of converging religions. The twenty-four essays offered in this volume, which derive from Hittite, Cilician, Lydian, Phoenician, Greek, and Roman cultural settings, focus on encounters at the boundaries of cultures, landscapes, chronologies, social class and status, the imaginary, and the materially operative. Broad patterns ultimately emerge that reach across these boundaries, and suggest the state of the question on the study of convergence, and the potential fruitfulness for comparative and interdisciplinary studies as models continue to evolve. The pomegranate, *Punica granatum* L., is one of the oldest known edible fruits and is associated with the ancient civilizations of the Middle East. This is the first comprehensive book covering the botany, production, processing, health and industrial uses of the pomegranate. The cultivation of this fruit for fresh consumption, juice production and medicinal purposes has expanded more than tenfold over the past 20 years. Presenting a review of pomegranate growing, from a scientific and horticultural perspective, this book provides information on how to increase yields and improve short- and medium-term grower profitability and sustainability.
